- RESULTS AND SCREENSHOT
- CONCLUSION

❑ PROBLEM STATEMENT

Students and beginners often struggle to present their skills, projects, and learning journey affectively. A portfolio website solves this by providing a professional online identity to showcase skills, and projects.

❑ PROJECT OVERVIEW

This project is a **Personal portfolio website** created using HTML, CSS, JAVA SCRIPT. It highlights the student's introduction, skills, and projects and includes contact for communication.

❑ END USERS

- ❖ Students and fresh graduates who want to showcase their skills.
- ❖ Recruiters and hiring managers looking for talent.
- ❖ Personal contacts and collaborators.

❑ TOOLS AND TECHNOLOGIES

- ❖ HTML for structure
- ❖ JAVASCRIPT for interactivity(contact form,navigation)
- ❖ CSS for styling and layout

❑ PORTFOLIO DESIGN AND LAYOUT

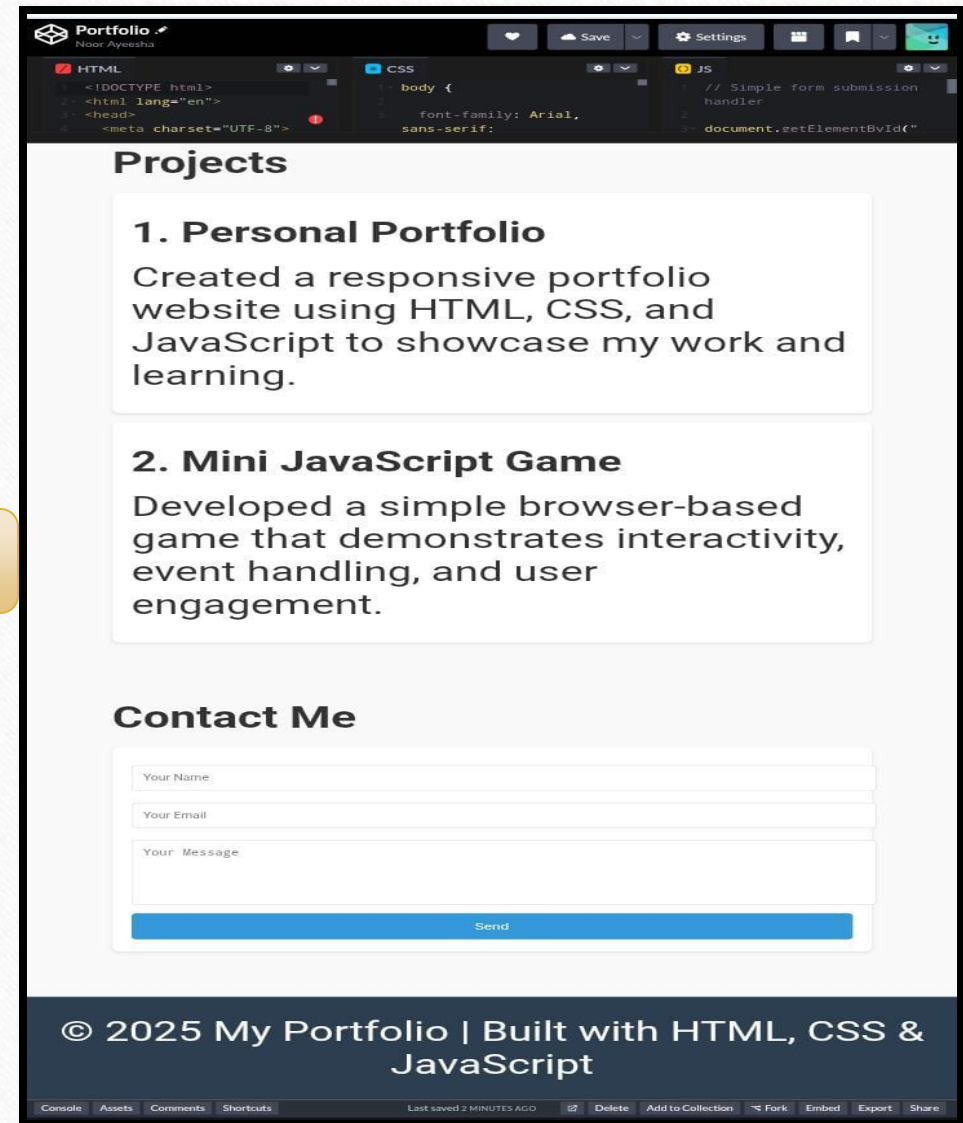

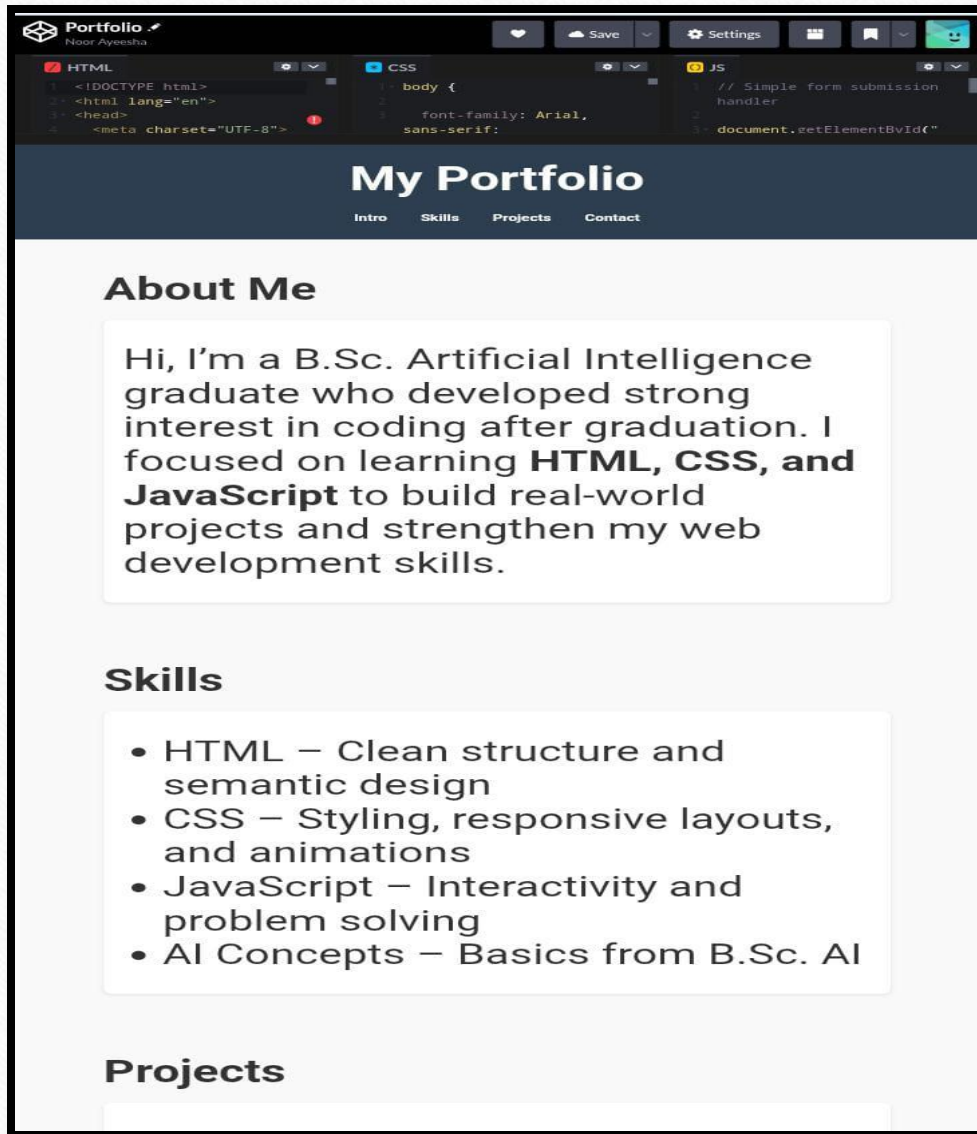

- ❖ Clean and Minimal design
- ❖ Header with Navigation links
- ❖ Sections: About me, Skills, Projects, Contact
- ❖ Footer with copyright

❑ FEATURES AND FUNCTIONALITY

- ❖ Responsive layout that works on all devices
- ❖ “About Me” introduction with educational background
- ❖ Skills section listing technical knowledge
- ❖ Project showcase with descriptions
- ❖ Contact form (Name, Email, Message) with a Submit Alert

❑ RESULT AND SCREENSHOT

- ❖ **Working portfolio website with multiple section**
- ❖ **User friendly interface**
- ❖ **Interactive contact form**

CONCLUSION

**The Portfolio website is an effective way to present skills and projects in a professional manner. It demonstrates practical knowledge of web development
And creates a foundation for future career opportunities.**
